EDGE BAND

## ACRYLIC EDGE BAND

### ADVANCE ACRYLIC EDGE BAND

In the world of interior design and furniture manufacturing, every detail counts, and the finishing touch often makes all the difference. Acrylic edge banding, a versatile and essential element in these industries, serves as the unsung hero in providing that finishing touch. With its aesthetic appeal and protective capabilities, Advance acrylic edge banding has earned its place as a sought-after solution for a wide range of applications.

### AESTHETIC ELEGANCE

One of the most striking aspects of Advance acrylic edge bands is their remarkable ability to enhance the visual appeal of furniture and interior fixtures. With an extensive array of colors, finishes, and textures, they offer a world of creative possibilities. Designers and manufacturers can effortlessly achieve a seamless and polished look, matching or contrasting with the primary surface to create a statement piece that exudes elegance and sophistication.

### ACRYLIC LAMINATES

A type of finish similar to lacquer, Advance acrylic laminate is a non-toxic, anti scratch, reflective high gloss finish which give cabinets a smooth appearance. It is made of polymer fibre, available in a wide range of colours and will give a mirror-like look to your interior. It is a durable decorative option as it leaves a reflective and glossy sheen on the surface of shutters which lasts for years. It comes in a range of bright colours that uplift the aesthetics of your interiors.

## INSPIRATION FOR YOUR INTERIOR DESIGNING

SCAN THE QR CODE and Get Designing Inspiration for Multiple Interior Applications Like Bedroom, Living Room, Kitchen, Dining Table, Kids Room, Offices etc.

### WHAT YOU WILL FIND AFTER SCANNING QR CODE?

- Interactive PDF of interior application.
- Touch the interior and find the used shades in application.
- Multiple applications of almost each and every corner of your interior.

Thanks for selecting such a beautiful and long-lasting Advance acrylic laminate. It is very easy to maintain advance acrylic laminate. By following the some measures you can enhance the life of acrylic glossy laminate.

- To clean the surface of acrylic laminate do not use thinner.
- Wipe the surface gently with a non-abrasive cloth.
- Avoid the use of abrasive liquid cleansers, bleaching compounds or solution as these may damage the surface of the laminate.
- Use mild house hold glass cleaner like COLIN to remove more stubborn stains.
- Clearing should be done with water and a clean, non-abrasive cloth.
- Do not place hot cookware directly on the laminate.
- Acrylic Glossy surfaces looks more beautiful when used for A vertical applications.
- Always store acrylic laminates at temperature below 300 Celsius.
- Avoid the prolonged exposure to temperatures above 300 Celsius, that may cause damage to the laminate surface.

### TIPS TO KEEP ACRYLIC GLOSSY LAMINATE NEW FOR YEARS

### HOW TO GET RID OF GENERAL PROBLEMS LIKE BUBBLE & CRACK IN ACRYLIC LAMINATE.

- Avoid the lamination process of acrylic laminate under high humidity environment.
- Use the good quality branded adhesive during installation to avoid air bubble after installation.
- Prevent the base substrate (Plywood, MDF, Particle Board) to absorb moisture. Because after few days of installation, base substrate gradually loses moisture and this resulting in air bubble formation between acrylic laminate and substrate.
- Always use calibrated substrate for furniture. Don't use uneven surface substrate (Plywood, MDF, Particle Board) that may lead to air vacuum and air bubble which may appear after the installation.
- Take extra care during use of big size acrylic laminate for paneling because due to the bigger surface area, improper lamination may lead to air bubble formation after installation.
- Provide the proper recommended time because short bonding/pressing time during the installation of acrylic laminate may lead to air bubbles.
- Keep the acrylic laminate sheet evenly straight. Leave the roll acrylic sheet straight for minimum 48 hours before using it.

- Always clean the dust particles properly from the substrate (plywood MDF, Particle Board) surface by cloth or soft brush.
- Always use good quality branded PVC adhesive to stick acrylic laminate on substrate. Please don't add water in adhesive before using it.
- Spread the adhesive uniformly by brush, roller or adhesive spreader on acrylic laminate and base substrate (Plywood, MDF, Particle Board).
- It is very necessary to remove the air between acrylic laminate and substrate. Please leave minimum 2mm of groove between two pieces of acrylic laminate.
- At the time of pressing acrylic laminate on base substrate (Plywood, MDF, Particle Board) always use soft pinch roller or normal pressing technique to protect surface from any damage.
- The pressing should be done from the middle of the panel and move towards to the sideline and corners of the panel.
- For better bonding of acrylic laminate on substrate, press it for minimum 12 to 15 hours

### BEST WAYS TO USE ADVANCE ACRYLIC LAMINATES ON INTERIOR FURNITURE

### DO YOU KNOW HOW TO PREVENT THE COLOR FADE OR YELLOWING OF ACRYLIC LAMINATE?

- Do not expose your acrylic laminate furniture to direct sunlight, it may cause discoloring, fading and yellowing of the laminate.
- Don't use inferior quality over chemical dipped plywood as it can react with adhesive which may cause yellow patches after the installation.
- Don't use synthetic rubber adhesive for bonding as it may lead to brown / colored patches on acrylic laminates.
- Prolong exposure of acrylic laminate above 30-degree temperature should be avoided.

ANTI SCRATCH 6H

# How Advance ACRYLIC LAMINATE IS BETTER THAN LACQUERED GLOSS

1

## AESTHETICS

ACRYLIC LAMINATES are preferred decorative surface material for gloss finish. And, they add a visual appeal to your interior.

LACQUERED GLOSS are comparatively less striking in compared to ACRYLIC laminate & needs utmost care after & during application.

## COST

As ACRYLIC FINISHES are aesthetically more appealing and are easy to clean, they come with lower price than Lacquered Gloss.

While LACQUERED GLOSS comes with very high price tag in comparison to ACRYLIC LAMINATE.

4

2

## COLORS & VARIETIES

ACRYLIC FINISHES retain their color and brightness for ages and are available in plenty of vibrant colors.

White, LACQUERED GLOSS has limited variety of color & pattern.

## USER FRIENDLY AND SAFETY:

ACRYLIC LAMINATES are available in 1.25 / 1.5 / 2.5 / 2.8 & 4.0mm thickness & they are lighter in weight. So it is safe to use ACRYLIC LAMINATE in interior.

LACQUERED GLOSS are available in 6mm thickness and they are heavy in weight so it is very much risky to use it in interior. There is always a chance of accident during and after the use of Lacquered Gloss.

5

3

## MAINTENANCE & DURABILITY

While ACRYLIC FINISH are scratch resistant. They do not get scratched over the years, but always appear ultra-glossy and relatively smooth.

White LACQUERED GLOSS are tend to have scratches on its surface very easily.

DO YOU  
KNOW

THE DIFFERENCE  
BETWEEN

1.25<sup>MM</sup> / 1.5<sup>MM</sup> / 2.5<sup>MM</sup> / 2.8<sup>MM</sup> / 4.0<sup>MM</sup>

## ACRYLIC LAMINATE

The thickness plays an important role in look and feel of ACRYLIC LAMINATE.

JUST HAVE A LOOK

1.25<sup>MM</sup>  
ACRYLIC  
LAMINATE

1. Less scratch resistance, more prone to scratched & stains.

2. Less reflective surface, having low gloss effect

3. Comparatively less life

1.5<sup>MM</sup>  
ACRYLIC  
LAMINATE

1. High reflective surface, having high gloss effect than 1.25mm thickness.

2. 100% Scratch resistance surface

3. Long life in comparison to 1.25mm

2.5<sup>MM</sup>  
ACRYLIC  
LAMINATE

1. High reflective surface with more gloss effect than 1.5mm acrylic laminate

2. 100% Scratch resistance surface

3. Long life panel that keeps its shine for longer

2.8<sup>MM</sup>  
ACRYLIC  
LAMINATE

1. Ultimate gloss level having high refractive surface.

2. Scratch resistant and easy to clean

3. Shine like a gloss with ultimate strength and life

4.0<sup>MM</sup>  
ACRYLIC  
LAMINATE

1. Transparent surface looks like a gloss

2. 100% scratch resistance surface

3. Uses in place of gloss in door and window

## BEST WAY TO USE ACRYLIC LAMINATE:

To avoid the color variation in ACRYLIC laminate during application in interior, please use the similar batch number acrylic sheets. There may be slight variation of colour in different batch number.

**SUGGESTION WITH TERMS AND CONDITIONS**

- There will be no guarantee or exchange under any circumstances.
- Color variations in products from different batches are possible.
- We recommend using products from same batch to avoid color variations.
- Do not use plywood with high moisture content.
- Do not use ply with uneven surface.
- Use only recommended adhesive.
- Apply sufficient pressure.
- We do not recommend pasting of sheets on the printed/branding area of the plywood.
- To avoid De-lamination/air bubbles in between ply & acrylic laminate sheets bonding of acrylic laminate should not be done under high humidity

**LIMITED WARRANTY**

- Kindly check the sheet in all aspects immediately after purchasing & prior to cutting.
- In case of manufacturing defect, only replacement of used sheet will be made.
- No warranty for corner crack or Air bubble.
- No Claim will be entertained there after in any of the specifics.

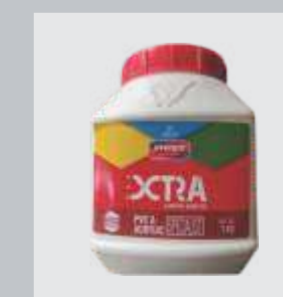

No Claim will be entertained for Air Bubbles

No Claim will be entertained for cracking arising at groove or L Shape

**ADHESIVE SUGGESTION FOR PASTING**

- Apply Sufficient pressure.
- We do not recommend pasting of sheets on the printed/branding area of the plywood.
- To avoid De-lamination/air bubbles in between ply & acrylic laminate sheets bonding of acrylic laminate should not be done under high humidity
